Version 0.4 06/30/2021

- * Access most hidden controls.
- * Save your changes to disk (JSON).
- * Load patch from file (JSON).
- * Note that this program does not upload sysex patches to the REV500.
- * Patch name change is only recorded to saved files only.
- * All save operations must be executed on the REV500 unit itself.

Other Useful Business Software

With infrastructure monitoring, modern operations teams get complete observability of complex and hybrid systems, from a datacenter to thousands of Amazon, Google Cloud, or Azure instances.

Troubleshoot faster with New Relic infrastructure monitoring.

Quickly pinpoint issues across your cloud and on-prem infrastructure, determine their impact, and identify root causes.
