Moving to github

ctrlr is moving to **github** to make the use of the website more friendly. Please post all issues there. Also a discussion addon is enabled. I'm still working on how to deal with panel uploads.

TC Electronics M350 Effects Processor Panel

September 19, 2021 by aehrath

So I whipped up a simple panel for the M350 Effects Processor Panel. I just learned Ctrlr today and reckoned I would test my new found skills on this panel. Work in progress but I wanted others to be able to enjoy this panel, too. I will improve it in the future. I am also planning to make a ROLAND JD-XA panel. Let me know what you think!

Download

I do this purely in my spare time. I am busy software engineering during regular+ work hours. If you find this useful and want to encourage me to make more cool stuff, feel free to contribute with whatever it is worth to you by clicking the button below. Follow me on my YouTube channel for more cool projects. Just search for my full name, Alexander Ehrath

cosmeticboxes

November 23, 2021 at 9:12 am

Hi, Thanks for sharing very informative articles i like it. Estimating the cost of Custom Cosmetic Boxes helps you find cost-saving opportunities for your business. Product fragility, complexity, supply chain, volume order, secondary packaging, and brand marketing are essential factors. https://wowcosmeticboxes.com/
